Strategic focus

Create value

- Improve synergies between three divisions
- Focus on long term performance rather than short term profit

Grow scale

- Grow our three businesses organically and through investments
- Diversify earnings to reduce relative importance of our advisory business

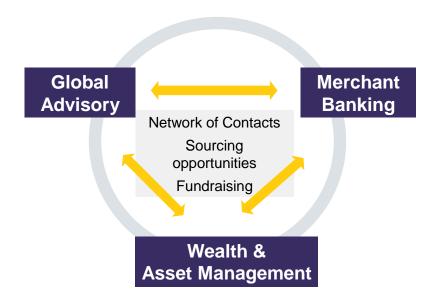

Improve returns to shareholders

- Maintain strict cost control
- Efficient use of capital

Cross fertilisation provides a competitive advantage

Client referrals to GA have tripled to 90 in 2018¹ (mainly from Wealth Management)

10%-20% of asset inflows in Wealth Management come from other businesses (mainly GA and to a smaller extent MB)

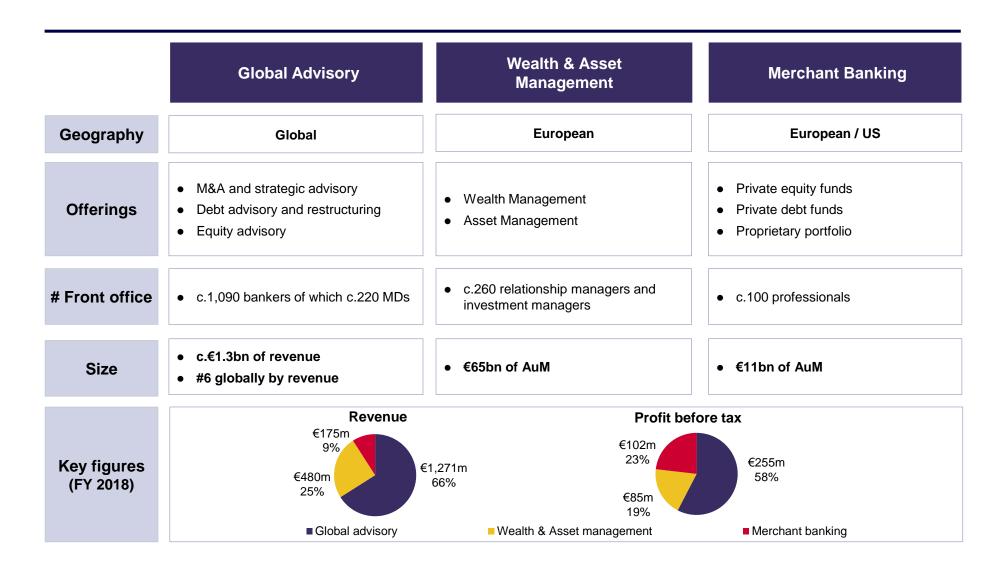

1/3 of commitments of the Five Arrows funds ² from Rothschild & Co distribution network (Wealth and Asset Management)

Not

Merchant Banking's reported AuM are now calculated on the basis of the funds' Net Asset Value plus all investors' undrawn/callable capital commitments, according to the rules specified in the funds' prospectus. In addition, the reported AuM also include the value of co-investments by investors that have direct exposure to assets included in the portfolio of the funds, in those cases where Merchant Banking maintains a strong influence over these co-investments.

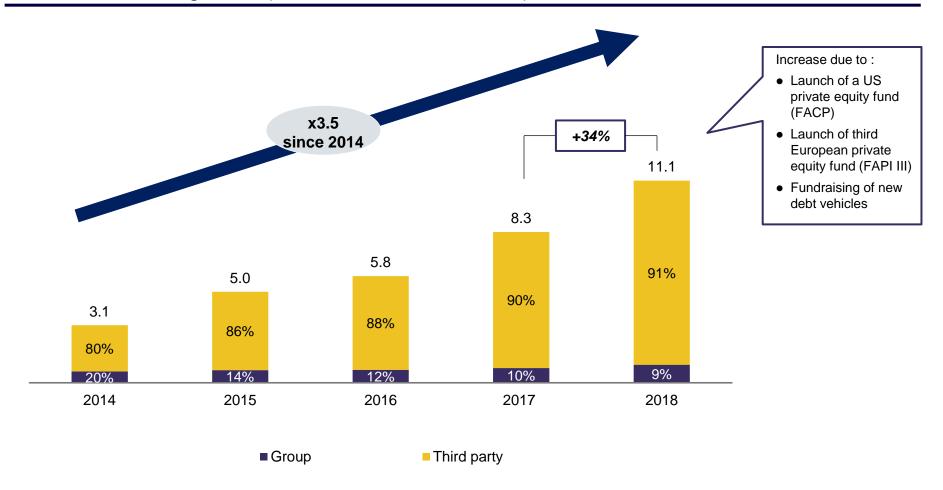

Strong value creation in portfolio for shareholders

Steady growth in AuM

Assets under Management (in €bn, as at 31 December)

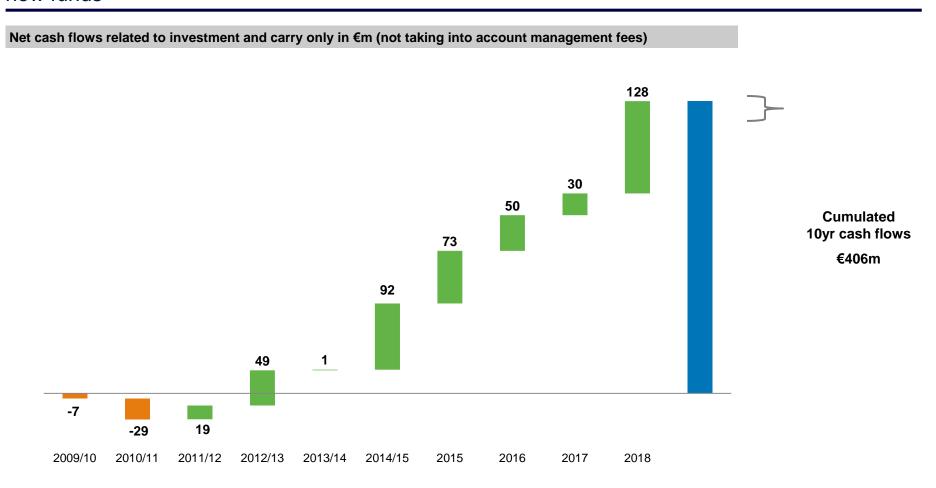

Notes

- 1 At the beginning of 2018, Merchant Banking decided to update its definition of Assets under Management (AuM) to align it with generally accepted industry practices
- 2 AuM are now calculated on the basis of the funds' Net Asset Value plus all investors' undrawn/callable capital commitments, according to the rules specified in the funds' prospectus

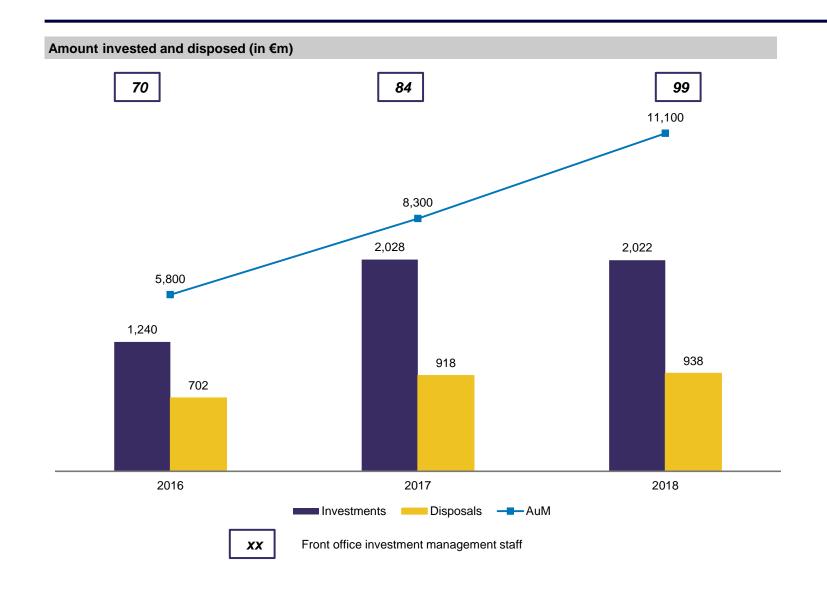

Business largely cash flow positive as the profits of mature assets finance investments in new funds

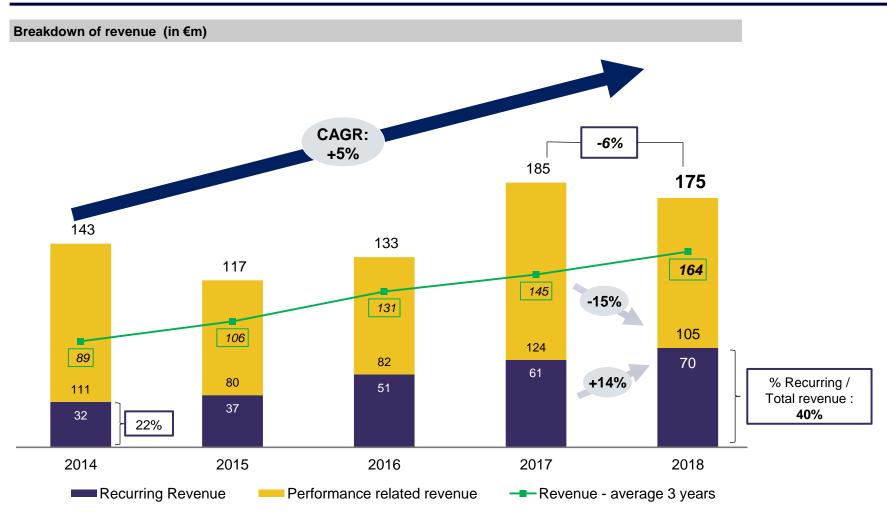

Dynamic activity since 2016

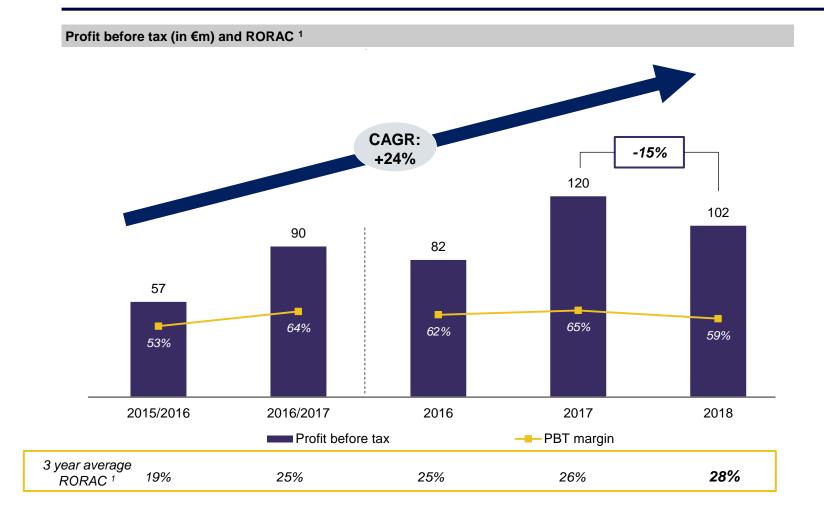

High level of revenue with increasing recurring revenue

Good returns on capital tied to successful business growth and investment performance

¹ RORAC stands for Return On Risk Adjusted Capital – an internal measure of risk capital invested in the business, being adjusted profit before tax divided by risk weighted capital

Strategy

- Grow Assets under Management while remaining a multi-asset manager:
 - Develop our niche position as a diversified mid-cap player in Europe and more recently in the US
 - Accelerate the roll out of multiple products in Europe and the US
 - Raise new funds targeted at specific opportunities, where we believe we have a distinctive investment advantage
 - Highly selective in the underlying assets invested in through our 14 active funds and 8 CLOs
- Alignment with investors as capital at work will increase marginally compared to AuM
 - Increasing share of recurring revenue from management fees and lowering invested assets-to-AuM ratio
- Remain highly selective in investment decision-making & focus on investment opportunities where we have a distinct advantage
 - Attractive risk-adjusted returns through robust and durable barriers to entry
- Private equity philosophy to invest in EBITDA growth
 - Focus on 3 core sectors: "asset lite" a cyclical companies with both defensive characteristics and embedded growth
 - Sustainable returns on invested capital with strong free cash flow conversion
 - High visibility on future revenues and earnings
 - Strong organic growth coupled with multiple opportunities for value creation
- Continue to generate strong returns on capital with limited correlation to general market movements through a mix of management fees, capital gains and carry

This analysis is prepared from non IFRS data used internally for assessing business performance then adjusted to conform to the Group's statutory financial accounting policies. IFRS reconciliation mainly reflects: the treatment of profit share paid to French partners as non-controlling interests; accounting for deferred bonuses over the period that they are earned; the application of IAS 19 for defined benefit pension schemes; a central impairment provision in "net income/(expense) from other assets"; removing realised gains on sales of investment securities where the unrealised gain was in the AFS reserve at 31 December 2017 before the introduction on IFRS 9; and reallocation of impairments and certain operating income and expenses for presentational purposes

² Martin Maurel contributed €105m of revenue and €28m of PBT to 2017 results
