

# Job Specification

**Job Title:** Dynamics CRM Developer  
**Division:** IT – Business Applications  
**Contract:** 6 months with potential for renewal  
**Location:** London

## **Rothschild & Co**

Rothschild & Co is one of the world's largest independent financial advisory groups. We offer a distinct perspective that makes a meaningful difference to our clients' business and wealth.

With a team of 2,800 talented financial services specialists on the ground in 40 countries across the world, we provide independent advice on M&A, strategy and financing, as well as investment and wealth management solutions to large institutions, families, individuals and governments. As a family-controlled business that has been at the centre of the world's financial markets for over 200 years, we can rely on an unrivalled network of specialists and are known for our track-record of outstanding execution in financial services.

## **Overview of Role**

Rothschild requires an experienced Dynamics CRM Developer to join our Business Applications team supporting the Global Advisory business to help deliver a business critical CRM 2016 solution.

The successful candidate will be joining the project at a critical phase as we upgrade the platform from MS Dynamics 2013 to 2016. As such, experience in 2016 upgrades is essential as well as having experience on multiple Dynamics CRM projects across the full SDLC including development, test, deployment and documentation.

In addition to having sound knowledge of Microsoft Dynamics CRM, in particular the candidate should have proven experience in the development of CRM customisations, plug-ins and web services. Strong SQL skills and .NET/C# are also an added bonus.

This role reports to the CRM Project Manager.

## **Responsibilities**

- Customisation and configuration of Dynamics CRM
- Developing advance CRM plugins and custom workflows
- Co-ordination with business analysts and development team
- Utilise the standard toolset to ensure that work is: properly planned, logged and time recorded, check in to source control and kept safe and secure and properly commented and structured

## **Education and Qualifications**

- Microsoft Dynamics Certifications in CRM 2015/16

## **Experience, Skills and Competencies Required**

Suitable candidates are likely to have:

- Minimum of 5 years' working with Microsoft Dynamics
- Experience of migrating from CRM 2013 to CRM 2016 version
- Experience of using CRM Server Side Synch
- Data integration/cleansing and migration experience for initial load and on-going integration with SSIS & Kingsway Soft adapter
- Experience consuming and developing WCF services/Web API
- Experience working with SQL Server Reporting Services
- Experience within a financial services institution
- Experience with JavaScript frameworks such as Angular JS
- Strong troubleshooting skills
- Team player and problem solver
- Demonstrates good analytical and technical skills
- Demonstrates ability to be flexible and adaptable
- Demonstrates good communication skills, including written
