*Indicator explanation in Important information on Page 5.*

### Market risk

The fund invests in market securities and may therefore be subject to fluctuations in value. As this fund pursues an active management style, the performance can deviate substantially from that of its reference index. All investments are subject to market fluctuations. The fund specific risks can increase under unusual market conditions.

### Liquidity risk

The fund may invest some of its assets in financial instruments that may in certain circumstances reach a relatively low level of liquidity, which can have an impact on the fund's liquidity.

### Risk arising from the use of derivatives

The fund may conduct derivatives transactions. This increases opportunities, but also involves an increased risk of loss.

### Currency risks

The fund may invest in assets denominated in a foreign currency. Changes in the rate of exchange may have an adverse effect on prices and incomes.

### Operational risks and custody risks

The fund is subject to risks due to operational or human errors, which can arise at the investment company, the custodian bank, a custodian or other third parties.

# Important information

**Risk Factors to Consider Before Investing:** The value of the shares and the resulting income may fall as well as rise. The investor may receive upon the redemption of its shares an amount less than that originally invested. Investing at the international level can bring additional returns and diversify risks. However, fluctuations in exchange rates may have a positive or negative effect on the value of your investment. The SICAV may make use of financial derivative instruments for hedging purposes which can involve significant risks of loss. Complete information on risks relevant to the SICAV can be found in the prospectus. The decision to invest in the Fund should take into account all the characteristics or objectives of the Fund as described in its prospectus. Investment in the fund concerns the acquisition of shares in the fund, and not in the underlying assets in which the fund invests as these assets are owned by the fund.

The fund promotes Environmental/Social (E/S) characteristics invests in companies with good governance practices. While it does not have as its objective a sustainable investment, it will have a minimum proportion of 15% of sustainable investments. As such, the Fund discloses information under Article 8 of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector (SFDR). Further information about the sustainability-related aspects of the Fund is available [here](#).

**Risk indicator information:** This indicator represents the annual historical volatility of the Fund over a 5-year period. Lack of sufficient data, the risk indicator incorporates simulated data from a benchmark portfolio. Risk Category 4 reflects medium potential gains and/or losses for the portfolio. This is due to investments in equities without geographic restraints. Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Fund's future risk profile. The risk category associated with the Fund is not guaranteed and may change over time. The lowest risk category does not mean "risk free". Your initial investment is not guaranteed.

The fees and charges paid by the Fund will reduce the return on your investment. Certain costs paid by the Fund will be charged in other currencies than your local currency, and exchange rate fluctuations may cause these costs to increase or decrease when converted into your local currency.
